

*he SC*

Mr. Cheston

December 18, 1943

Major Willis

Commissioning of Sergeant Lang

Colonel Lowman asked me to bring this to your attention believing that perhaps the attached cable might help in getting Lang's commission through.

We realize how very busy and pressed you are by innumerable activities but wonder if it would be possible for you to put in a personal car to try to pull this boat over the rapids as it is a most deserving case.

I understand from Lt. Neller that Lang's papers are now in Colonel Connely's office. (Colonel Connely has been away for about 2 weeks and further action will probably have to await his return.)

We will really appreciate anything that you can possibly do to help on this.
